AMENDMENTS TO THE SPECIFICATION

Please note that the page and line numbers referenced below correspond to the SUBSTITUTE SPECIFICATION filed on July 15, 2004.

Please delete the section from line 5 to line 10 on page 7 and insert the following replacement section with markings to show the changes:

When M and M¹ are other than hydrogen, that is, define the "augmented extended monomer," then

2

M is defined as $[[W^1R^2-:]]$ $\underline{WR^2}$ and

 M^{1} is defined as [[W²R³-]] $W^{1}R^{3}$ -,
